SOUTH COASTAL BASIN INVESTIGATION

RECORDS OF

GROUND WATER LEVELS AT WELLS

FOR THE YEAR 1932

SEASONAL FRECIPITATION RECORDS

TO AND INCLUDING 1931-32

LIBRARY
UNIVERSITY OF CALIFORNIA
DAVIS

- 1

FOREWORD

The well records here given are a continuation of those published in Bulletin 39. Descriptive data for each of the wells and maps showing their location are given in that Bulletin. A few new wells are included and the descriptive data in the case of these wells are included in this Bulletin.

Percolation to the water plane from rainfal) on the valley floor is important in parts of South Coastal Basin and for that reason all known official and unofficial records have been collected and the annuals are published herein. The totals are for the season July 1st to June 30th. There is a tendency on the part of observers to neglect the minor storms, particularly those occurring at the beginning and at the end of the season. Through inspection of the records at nearby stations, the amount of precipitation so neglected has been estimated. This amount has been added to the recorded precipitation and an asterisk indicates where such a change has been made.

Records of daily precipitation for most of the stations included herein are available in the office of the Division of Water Resources.

Prints of these can be obtained.

The cooperation of observers and of the agencies through which the records have been made available is appreciated, and acknowledgment is made in a table showing precipitation station data.

Measurements from La Verne Protective Association except as noted.

a Measurement from Los Angeles County Flood Control District.

b Measurement from J. R. Shoemaker.

C-581c-G-18, SAN DIMAS WATER CO. MAP 6

Log available.

Location and description—560 feet south of Pacific Electric Ry., 460 feet west of South "D" Street, south of La Verne.

Reference point—Air gage, 1 foot above ground.

Elevation of reference point—1025, from U. S. G. S. topog. by L.A.

Co. F. C. D.

Use—Irrigation.

Depth of well—742 feet.

Diameter of casing-18 inches.

Other numbers used-L. A. Co. F. C. D. No. 3220A.

a Measurement from Riverside Cement Company

b Measurement from J. R. Shoemaker.

c Measurement from San Antonio Water Company.

d Measurement from owner.

e Measurement from Lytle Creek water Conservation Association.

f Ref. pt.—Airline gage, 1 foot above ground.

Measurements from Fontana Union Water Company except as noted.
